

Ripple Ministries of Snohomish

2026 Corporate Partnership Program

Supporting the Teen Storytellers Project

Thank you for taking the time to consider a corporate partnership with **Ripple Ministries of Snohomish** and our youth media program, the **Teen Storytellers Project**.

We recognize that organizations today are navigating rising costs, economic uncertainty, and competing priorities. Deciding where to invest charitable dollars requires care and discernment. We are grateful for your consideration and for the opportunity to explore a partnership we believe can be both meaningful for the young people we serve and valuable for your organization.

Your partnership directly supports under-resourced and at-risk teens as they develop creativity, technical skill, communication, collaboration, perseverance, and care for their communities through hands-on filmmaking education. At the same time, it allows your organization to visibly support youth development while promoting your mission and values in a positive, community-focused way.

Program Impact

Corporate partnership funds help make possible:

- Specialized summer camps and year-round filmmaking programs
- Outreach to underserved communities throughout Snohomish County and into South King County
- Professional mentorship from experienced instructors
- Access to industry-relevant tools, equipment, and creative spaces

Over the past two years, our consistent work with teens participating in **Denney Youth Enrichment Programs** has earned us the opportunity to provide filmmaking classes inside juvenile detention settings. These students are often overlooked and face significant barriers, yet they benefit deeply from creative expression, structure, and caring mentorship. Additional camps and classes are planned as funding allows.
